Key Features

Map Your Efforts and Activities in 48 Hours

Identify all required corrections, tests, and efforts before starting your upgrade. Save hundreds of working hours and focus on real risks, not assumptions.
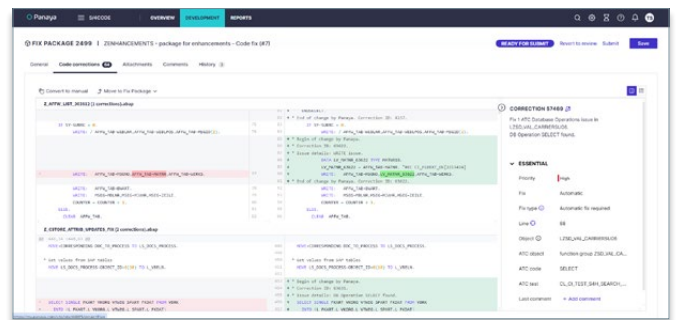

Uncover Your Risks and Unknowns BEFORE You Change

Avoid costly surprises with Panaya's proactive impact analysis, prioritizing activities based on usage and likelihood of failure. Gain visibility of potential failures and receive prioritized recommendations tailored for your current business processes.

Deploy Code Corrections at a Click of a Button

Turn complex upgrades into simple, automated steps. Our platform delivers precise code corrections, ready to be deployed directly into your Dev system helping you save valuable time and resources.
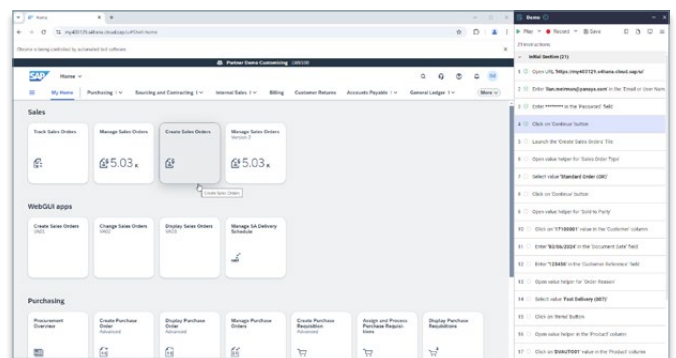

Real-Time Project Control

Stay in command of your project with intuitive dashboards and progress trackers. Panaya's actionable insights ensure you're always ahead of deadlines and challenges.

Smarter, Faster Testing

Leverage AI-driven end-to-end business process validation and regression testing, ensuring stability and performance with minimal effort. With Panaya's Test Automation, specifically designed for SAP S/4HANA, you reduce the time and effort needed to perform repetitive and complex testing tasks.
